

Economic and Community Benefit Impact of New York's Hospitals & Health Systems

	Hospital System	Special Medicare Status *	Economic Activity	Tax Dollars Generated	Community Benefit & Investments	Jobs Generated	Reimbursement from Medicaid & Medicare
			The economic activity generated by hospitals—through jobs and the purchasing of goods and services — makes up 10% of the state's entire Gross Domestic Product (GDP)	New York hospitals are responsible for generating significant tax dollars and stimulate the economies of your local community and the whole state	Adhering to their charitable mission, hospitals cover the cost of care provided to people in need; subsidize care and services to low-income, elderly, and under-served communities; and continuously invest in many community health initiatives	Hospitals and health systems are often the largest employers in communities, generate many more jobs, and are a top 10 private sector employer in every region of New York State	A large portion of hospital reimbursement is tied to Medicaid and Medicare; Medicaid only pays 73 cents for each dollar of care and Medicare only pays 95 cents
New York State Total			\$141,100,000,000	\$24,400,000,000	\$8,600,000,000	777,000	56%

Economic and Community Benefit Impact of New York's Hospitals & Health Systems

	Hospital System	Special Medicare Status *	Economic Activity	Tax Dollars Generated	Community Benefit & Investments	Jobs Generated	Reimbursement from Medicaid & Medicare
			The economic activity generated by hospitals—through jobs and the purchasing of goods and services — makes up 10% of the state's entire Gross Domestic Product (GDP)	New York hospitals are responsible for generating significant tax dollars and stimulate the economies of your local community and the whole state	Adhering to their charitable mission, hospitals cover the cost of care provided to people in need; subsidize care and services to low-income, elderly, and under-served communities; and continuously invest in many community health initiatives	Hospitals and health systems are often the largest employers in communities, generate many more jobs, and are a top 10 private sector employer in every region of New York State	A large portion of hospital reimbursement is tied to Medicaid and Medicare; Medicaid only pays 73 cents for each dollar of care and Medicare only pays 95 cents
New York State Total			\$141,100,000,000	\$24,400,000,000	\$8,600,000,000	777,000	56%
